OBJECTIVE

To work as an analyst in strategic, high-impact areas, contributing data analysis, process mapping and information management to support decision-making in private, public or non-profit organizations.

PROFESSIONAL EXPERIENCE

Project Technician – Data and Research Unit

12/2025 – present

FGV Projetos · Fundação Getulio Vargas

- Work on projects in social policy, public health, early childhood, public safety and violence against women.
- Liaison with clients and public managers to align requirements, follow up on deliverables and validate results.
- Development of Power BI and Streamlit dashboards to monitor public policies and government programs.
- Cleaning, consolidation and analysis of administrative and public databases with Excel, Power Query, DAX and Python.
- Indicator design, data modeling and consistency checks to support decision-making.
- Technical reports, executive presentations and visual materials to communicate results.

PROJECTS

- **SuperAção SP Program**: management dashboards, a monitoring portal in Streamlit and technical data studies.
- **Early childhood assessment in São Paulo State**: indicators, time series, breakdowns by territory and race, maps and the creation of Datapedia.
- **Piauí Early Childhood Observatory**: integrated dashboard based on the Nurturing Care framework and a proposed vulnerability index.
- **Payroll of public hospitals in Sergipe**: data consistency and quality analysis.
- **AI for report standardization**: innovation proposal that received an Honorable Mention.

Data Visualization Consultant (freelance)

2026

Rio de Janeiro Femicide Observatory · UFRJ

- Responsible for the entire visualization layer of the data platform on violence against women in the state of Rio de Janeiro.
- Designed the navigation around the concept of the critical path, with storytelling, charts and navigation buttons.
- Built DAX measures and indicators integrating public safety, health, social assistance and justice data.

Intern

09/2024 – 12/2025

Movimento Profissão Docente · Instituto Península

- Worked with state education networks to strengthen the mandatory teaching internship policy, based on evidence and indicators.
- Built indicators and DAX measures, with data modeling and microdata from the Higher Education Census.
- Wrote technical documents and reports for state education departments.

PROJECTS

- **Mandatory Teaching Internship Policy monitoring dashboard**: Power BI, at national and state level (2025).
- **Maranhão mandatory internship guide**: contributed to its development.

Intern – Monitoring and Evaluation

12/2022 – 09/2024

Executive Secretariat for Strategic Projects (SEPE) · São Paulo City Hall

- Responsible for the technical side of monitoring the Integrated Municipal Early Childhood Policy, managing information and indicators.
- Collected, cleaned and analyzed quantitative and qualitative data with Excel, Power Query and Power BI.
- Turned qualitative records into analytical variables and categories, structuring databases for ongoing monitoring.
- Wrote strategic reports summarizing findings, trends and recommendations for public policy.

PROJECTS

- **Dashboard for the online course "Integrated Early Childhood Care Protocol"**: participant profile, performance and territorial coverage in Power BI (2022).
- **Training management manual for the course**: organization of processes and information flows (2022).

PIBID/CAPES Fellow – Sociology

2022 – 2024

Federal University of São Paulo (UNIFESP)

- Taught Sociology in a public school in Guarulhos.

PROJECTS

- **Research "Youth and the New High School"**: survey design, exploratory data analysis and presentation of results at a conference.

EDUCATION

Teaching Degree in Social Sciences

Completed 12/2025

Federal University of São Paulo (UNIFESP)

- **SouCiência research**: study on the expansion of higher education in Brazil (02/2024 – 10/2025).

High School

Completed 12/2020

Colégio Dr. Walter Belian · São Paulo, SP

TECHNICAL SKILLS

BI and visualization	Power BI (DAX), Power Query, data storytelling
